Mercedes-Benz Certified Collision Application

Please read the following instructions before filling out the Mercedes-Benz Certified Collision Program Application.

Dealership

The goal of the Certified Collision Program is to offer a Mercedes-Benz Certified Collision Center to all customers, which means successfully filling all open Areas of Influence (AOI). Dealerships can sponsor as many collision centers as needed to address their customer's needs. Applying/interested Collision Centers should be in their sponsoring dealership's sales area or within a reasonable distance as determined by MBUSA. The dealership's AOI and Units in Operation (UIO) will be analyzed and the approval will be determined by MBUSA. If there is not adequate coverage within a market, the dealership will receive a letter from MBUSA. If the dealer does not take action to sponsor a Collision Center within 6 months from the notice, MBUSA will extend the opportunity to dealers outside of the AOI.
